

The Daily Gazetteer:

WEDNESDAY, MAY 16. 1739.

N^o. 1215.

Yesterday arriv'd a Mail from Holland.

Stockholm, April 23. O. S.

THE King sent Word to the Dyet before it broke up, that if any Indisposition should disable him hereafter from assisting in the Deliberations of the Senate, he hop'd the States of the Kingdom would not take it amiss if the Queen supply'd his Place, as she did last Year; to which the Dyet has consented. The States have made a Present of 20,000 Crowns to the Count de Tessin, who was Marshal of that Assembly; 1500 to the Archbishop of Upsal, who was Prolocutor for the Clergy; 1000 to the Orator for the Burghers; and 500 Crowns to the Orator for the Peasants. The Count de Tessin, as Marshal, was Orator for the Nobility; and at the same time all the 4 Speakers received a Gold Medal to the Value of 25 Ducats. The next Dyet is to meet here in October 1742. M. de Kochen, Chancellor of the Court; and M. Neres, a Counsellor in the Chancery, have obtained Leave to resign their Employments; and 'tis said they will be forbid to have any manner of Correspondence with the Foreign Ministers. The Count de Gyllembourgh is declared President of the Chancery of Sweden. M. de Rudenschioelt, one of the Members of the late Secret Committee, is going instantly to Berlin, with a Commission of Importance.

Warsaw, April 26. O. S. We have Advice, which may be depended on, that the late Grand Vizier was not strangled, but that he is however gone to the Place of his Exile. A private Letter from Constantinople says, that the Grand Seignior was forced to depose him in order to prevent a Revolt of the Janissaries, who would serve under him no longer; and that his Highness was so fond of his Vizier, that the Tears flood in his Eyes when he sign'd the Warrant for deposing him. It adds, that there have been publick Rejoicings in divers Parts of Constantinople for his Disgrace.

Vienna, April 28. O. S. The Rumours of a Peace are revived, and there's a Talk of certain Preliminaries proposed by the Court of France, which may not be unacceptable to the Grand Seignior. 'Tis certain however that the new Grand Vizier continues to send Troops towards Moldavia, in order to augment the two Camps which the Turks are forming between Bender and Choczim. M. Carpentero, the Secretary of Spain, has lately received positive Orders to demand the Reversion of the Duchies of Parma and Placentia for the Catholick King, after the Death of the Emperor.

Berlin, May 5. O. S. The General de Natamar, a Velt Marshal of his Prussian Majesty's Forces, Knight of the Order of the Black Eagle, Colonel of the Gendarmery, Grand Bailiff of Naugard, Massau, Fredericksberg and Colzo, Prebendary of Colberg, and Hereditary Lord Proprietor of the Greater and Lesser Cannewitz, died here the 2d Inst. ætat. 85. His warm Zeal for the King, the Services which he has perform'd to his Majesty and the Empire, and the solid Piety which accompanied his Abilities and personal Bravery, render his Loss not only regretted by his Family, but by the whole Court and the Publick in general. He was an old Soldier, who had served under several Commanders with great Distinction; particularly the Prince of Waldeck, General of the Dutch Forces; the Prince of Orange, afterwards King William III. of England; and lastly, under the Duke of Marlborough and Prince Eugene of Savoy, who all had an Esteem for his Valour and Military Experience; this Marshal having been in all the Battles which those Generals fought in the Netherlands, and having been always wounded, or had a Horse shot under him.

Constantinople, March 6. N. S. The Capt. Pasha is gone to the Black Sea to see whether the Orders are put in Execution for building the Prames and Flat-Bottoms, and to examine the State of the Magazines, and to take care that every thing be ready for the speedy Departure of the Fleet, which will be one of the strongest that the Grand Signior has

yet had in the Black Sea. The Number of Soldiers that is to go on board the Sultana's, Gallies and Flat-Bottoms is to be 18000, of whom 12000 are already assembled at Bevisia, and the other 6000 that remain are to be taken out of the Janissaries of the Grand Signior's Guard. The Captain Pasha has Orders to go in quest of the Russian Flotilla, and to give it Battle.

Petersburg, April 20. O. S. The Gazettes and other News which we have received by this Post from Foreign Countries signify that a French Squadron may soon be expected in the Baltick, which gives room to many Conjectures. Many Lords and Gentlemen of Livonia and the neighbouring Provinces will make the Campaign this Year in the Ukraine; and upon every Occasion they give Proofs of their Zeal for the Service of the Czarina, in order to shew their Gratitude for the Advantages which they enjoy under the Government of the Czarina, who has re-establish'd the Inhabitants of the said Provinces in the Possession of all the Privileges which they enjoy'd heretofore. M. de l'Isle, Professor in the University of this City, has just published very curious Memoirs in French relating to the *History and Progress of Astronomy, Geography and Natural Philosophy*. Dialogues are also publish'd for the Use of the Russian Schools in the German, Russian, French and Latin Languages.

Madrid, April 17. O. S. The King has issued a very remarkable Decree to hinder any one Person from receiving the Salaries of two different Offices, which has put many Officers that had Pluralities into a Consternation, and will every Year bring in three Millions of Pieces of Eight into the Royal Treasury. The Prince of Nassau Siegen's Pension of 3000 Pistoles is by this Regulation suppress'd. Most of the Managers of the Crown Revenues are also turn'd out of their Employments. The Treasurer of the Farm of the Snuff, who is actually in Prison, is oblig'd to give an Account of two Millions of Reals that are deficient in the Produce of this Farm.

Genoa, April 21. O. S. The great Expences of the War in Corsica have oblig'd the Republick to lay a Duty upon Wax and Coals, at which the People murmur, and some of the most murinous have fix'd up Libels in several Parts of the Town with these Words: *Our Fathers have sinned, and we bear their Iniquities: Revenge thy People, O Lord.*

They write from Paris, that M. Rollin, the famous Author of the *Ancient History of the Carthaginians, &c.* and other Curious and Learned Tracts, persists in his Appeal against the Pope's Constitution Unigenitus (which Appeal was so lately revok'd by the University of Paris); and that he has resign'd the Place of Dean of that University.

We hear that in most of the Provinces of France the Winter Corn is dead at Root.

Some Letters from Lisbon say, that a Dispute is arisen betwixt the King of Portugal's Secretaries of State, and the Foreign Ministers; the former demanding of the latter to give them the Title of *Illusterrimo Excellentissimo*, instead of plain *Excellency*, which they have been call'd by hitherto.

They write from Italy, that the Great Duke of Tuscany, who is gone from his Dominions in that Country, with his Brother Prince Charles, went to Turin, and after a short Stay there, proceeded for Milan, where they were to meet the Grand Dutchess, and then to go all together to Germany by the Way of Switzerland. They travel with 200 Persons in their Retinue: and 'tis said the Farmer of the Salt at Milan, and the Merchants of that City, are to disburse 600,000 Livres in Preparations for their Reception, and that the Emperor has promis'd to reimburse the whole Sum out of the Royal Treasury. 'Tis added that above 300 of the Milanese Ladies were preparing to make their Compliments to the Great Dutchess.

A Fire broke out lately in one of the Lombard Houses in Brussels, which burnt from 4 o'Clock till 9, and destroy'd all the Pledges in two of the Chambers, but 'tis said the Commissioners have resolv'd to make them good to the Owners.

To SMELL to, &c.

The Most Noble, Volatile SMELLING-BOTTLE in the World, lately much improved.

WHICH smelted to, instantly relieves

Persons in the most dismal fainting or swooning FITS, and in a Moment removes Fluxings, Vapours, Dumbness, Head-ach, Megrim, &c. It takes off all heavy Sleepiness, retards Swoonings, keeps up the Spirits to a Miracle, and by its Use admits of no Fainting; but invigorates and enlivens the whole Man, recreates and makes cheerful, altho' never so sad, and in a Moment raises all the sensitive Faculties.

It is a So to be taken inwardly by Drops, which effectually takes off and eradicates the very Cause; for it potently relieves, comforts, and strengthens the Brain, creates and corroborates the Stomach, removes Sickness from it, helps Digestion, cleanses the Blood; and, in a Word, is the greatest Cephalick, Stomachick, Hepatick, and powerful Aromatick possible.

Whereas many Persons of both Sexes perfume their Handkerchiefs with a few Drops of it, and find that in using it so, it is of singular Service in all the Cases above mentioned; and many Gentlemen, Ladies and Others use it after this Manner, purely because it gives a most fragrant and delicious Odour, that constantly both delights and relieves the Senses, not only better than any thing of a musky Kind, (which is really hurtful to most Constitutions) but it really takes off what such Things do occasion; and also relieves the Head and Brain from any ill Effects of common Smell, and instantly diverts from, and prevents the bad Consequences of any sudden, nauseous, offensive Smells; therefore is extremely necessary for all Gentlemen, Ladies, &c. always to be carried in their Pockets.

Sold now only at Mrs. Marsham's Toy-shop, at the Seven Stars under St. Dunstan's Church in Fleet-street, and at Mr. King's Picture-shop in the Poultry, at 2 s. 6 d. each.
